**UL** UL FILE #E173549

### HEATER MICA PLATE RP 65 & RM 63

**Heater Mica Plate is produced using mica and a special heat resistant adhesive. It is widely used as a heat resistant barrier for hair dryers, electric irons, electric cookers and other heating appliances because of its superior heat reflection ability and heat resistance. It generates very little smoke even at excessive temperatures.**

**It has the acquired UL94V-0 approval with file No. E173549**

### FLEXIBLE MICA PLATE SM61

**Flexible Mica Plate is good heat resistant insulating material, which retains its permanent flexibility at room temperature. It is widely used for insulation on bending parts of dry type transformer, electric furnaces and electric home appliances.**

**SM61 is UL94V-0 approved with file No. E173549.**
